

TITLE: #6 RACE PUMP w/ BULKHEAD BRACKET
WIRE DIAGRAM

ELECTRICAL WIRING

1) Attach optional wire harness (137-8280 sold separately) to the supplied 137-8258 trim pump panel.

CAUTION All wiring must meet U.S.Coast Guard Standards.

2) Attached the harness to the pump following color code listed below.

A) 10ga. red wire to positive battery terminal. 20 AMP fuse required in this line per U.S. Coast Guard standard.

B) 10ga. black wire to negative battery terminal.

C) Blue wire, trim tab - UP.

D) Green wire, trim tab -DOWN.

CAUTION

Avoid damage to trim pump. DO NOT electrically operate pump without having hoses connected and 10W30 oil in the reservoir.
